COMMUNICATION

The Clerk presented and read the following communication from her Honor, the Mayor:

February 20, 1979
President and Members
Board of Supervisors
City Hall, Room 235
San Francisco, California 94102

President Molinari and Ladies and Gentlemen:

I have read the Supreme Court decision regarding the constitutionality of those sections of the State “bail-out” bill governing a local jurisdiction’s pay increases.

You will I am sure, agree that it is a complex decision and that statements as to what the decision means for Miscellaneous, Fire and Police or platform employees would be premature until all

of the ramifications of the decision as they pertain to San Francisco have been fully analyzed. It would be tragic if false hopes were raised as a result of premature comments on any of our parts no matter how well intentioned these might be.

I have asked the City Attorney for an analysis of the Court's opinion and for advice on what our *legal* position is as the result of yesterday's decision. You and your colleagues have earlier been furnished with an analysis of our *fiscal* situation prepared jointly by my office, the Budget Analyst and the Controller. You will recall that the most optimistic assumption in that document indicated available "surplus" of \$3.2 million.

In view of the uncertain legal ramifications of the Court's decision and our obviously precarious fiscal situation as we enter the 1979/80 budget year, I would earnestly ask that you and your colleagues approach this new situation with the utmost caution so as not to raise false hopes or put us in a situation where we seem obligated to incur expenditures far beyond our means.

Sincerely,
Dianne Feinstein
Mayor

Hearing of appeal from certain conditions imposed by City Planning Commission in approving tentative map of proposed twelve-unit condominium conversion subdivision at 2230 Francisco Street.

File 59-79-2

(Appeal filed January 25, 1979.)

Supervisor Horanzy, seconded by Supervisor Renne, moved that the Board resolve itself into a Committee of the Whole.

No objection and motion carried.

Mr. Herman Beneke of the Department of Public Works commented that in this case the appeal is from one of the conditions imposed by the City Planning Commission and that the Department of Public Works concurs with the position of the City Planning Commission.

Mr. Alec Bash made a presentation on behalf of the City Planning Commission, stating that the Commission had by its Resolution 8137 found that the tentative map of the proposed condominium conversion subdivision is consistent with the Master Plan provided that certain conditions are complied with, and noted that the appellant was appealing from the following condition contained in said resolution:

“5. Tenants aged 62 or older shall receive leases for a minimum of six months for each year of occupancy prior to this date, cancelable by the tenant on three months notice, after the date of recordation of the Final Map; rentals shall not be increased greater than the increase in the housing component of the Consumer Price Index over the time, commencing with the date of recordation of the Final Map.”

It being noted that the appellant was not present, the Chair

requested that the Journal of Proceedings reflect that this matter had been continued from the February 20, 1979, meeting of the Board due to the absence of the appellant, that a communication had been sent to the appellant advising him that his appeal was again set for hearing on this date, but that the appellant again failed to appear before the Board.

Statement of Supervisor Gonzales

The following statement of Supervisor Gonzales was presented and it was requested that it be included in the Journal of Proceedings:

One of my principal objections is that even though it is anticipated that by 1990, half of the Department will consist of women

and minorities, only approximately 5% of the leadership (lieutenants and up) will be minorities and women.

A further objection is that regardless of need or ability to fund, San Francisco is mandated to have a police force of at least 1,971 persons by August 1, 1981 and we are further mandated to maintain this number for at least three years. From 1981 to 1989, we must make 25 annual appointments to sergeant and 15 annually to assistant inspectors. Between August 1, 1985 and the termination date of the decree, there shall be 48 appointments to the rank of lieutenants and 16 persons to the rank of captain. These mandated personnel provisions will cost the City an additional \$5 to \$6 million per year. (When I questioned the City Attorney, Mr. George Agnost, how the number of 1,971 was arrived at, he informed me and the rest of the Board that it was the "historical level" set in 1974-75, and "for various reasons has not been met since then". Since we did not have any data at our disposal, no one, including myself, thought to rebut this. The statement by Mr. Agnost is and was untrue, the number 1,971 was reached by adding the current authorized [but unfilled] force of 1,852, plus the federally funded positions [and also not totally filled] of 119. There has never been a "historical level" set by the police department in 1974-75 or at any other time.).

It will be many years before women and minorities make a significant impact on the lieutenants and captains ranks. However, the decree embraces the present Charter language which mandates that deputy chiefs can only be appointed from among captains and adds lieutenants. The consent decree perpetuates the racist intent of that Charter amendment, to keep minorities out of the deputy chief ranks.

In order to meet the mandated level of 1,971 officers by August 1, 1981, the Department will have to train approximately 652 police officers (the increase in the force, plus attrition). The present recruitment drive is not meeting the police department's own goal of 12,000 applicants, including the appropriate percentage of racial minorities and women. It is doubtful that the present recruitment drive will produce the necessary racial minorities and women in order to comply with the goals set forth in the Consent Decree. Hence, the April 7 date for the police examination (from which the three year list of candidates will be chosen) may have to be postponed until sometime in the summer of 1979. Consequently, the new expanded training program (including the training of at least 35 new instructors) will not begin on the target date of August 1, 1979, and therefore, it will be impossible to train 652 new officers by August 1, 1981.

The Consent Decree should be amended to state that San Francisco shall "make every effort" to meet the number of 1,971 sworn personnel by August 1, 1981.

The Budget Analyst of the Board of Supervisors is presently conducting a major, in depth, management audit of the police department. It is anticipated that the results of said audit will have recommendations regarding staffing patterns and personnel dispersement within the department. The audit could very well make findings that the staffing level of San Francisco Police Department could be substantially less than the 1,971 persons mandated in the Consent Decree and still provide the necessary protection for the people of the City. The audit recommendations could very well be adopted by the Police Commission (as other City agencies have done after management audits). The City would be stuck with the rigid number of 1,971, a number that has no reason for existence.

I strongly believe that with the real effects of Proposition 13 are looming in the horizon; that the Board of Supervisors ought to be given the tools with which to best run the City and not tie us down to any artificial number of manpower on the police force. This artificial number may be unnecessary and an expense which we cannot afford, or meet.

Vote Rescinded

Supervisor Kopp, seconded by Supervisor Silver, moved rescission of the roll call vote on the following item:

Ordinance authorizing settlement of consolidated litigation of the United States vs. City and County, and Officers for Justice vs. Civil Service Commission, in accordance with substance of terms and conditions of consent decree providing for hiring and promotion relief in San Francisco Police Department, and for monetary relief; and authorizing City Attorney to execute the same. File 106-79-1, Ordinance No.

Supervisor Lau read the following statement and requested,

with the concurrence of the Board, that it be included in the Journal of Proceedings:

**STATEMENT BY SUPERVISOR GORDON J. LAU
RELATIVE TO SALARY STANDARDIZATION ORDINANCE
FOR MISCELLANEOUS EMPLOYEES**

FOREWORD:

The Salary Standardization recommendations for miscellaneous employees for fiscal year 1979-80 have been prepared under the procedures mandated by Charter Section 8.407. The Civil Service Commission has certified to the Board of Supervisors the prevailing basic pay rates for miscellaneous employee classifications, utilizing the formulae and procedures required by those Charter provisions.

The Board of Supervisors is mandated by the Charter to fix basic rates of pay as close as reasonably possible to the prevailing rates certified by the Civil Service Commission, and shall not set the maximum rate for any class in excess of the maximum prevailing rate for that class. Also, no employee shall have his basic pay rate reduced by the process. The proposed Salary Standardization Ordinance which is before the Board conforms to those requirements.

In considering these Salary Standardization certifications over the past several weeks, your Legislative and Personnel Committee has had the advantage of participation by the members of the Board. A central factor in that process has been a full recognition of the severe financial circumstances which continue to confront both the taxpayers and the employees of the City and County.

All data regularly submitted has been evaluated with extreme care, has been referred to the Civil Service Commission for review and analysis, and has been returned to the Board with such revisions and certifications as the Commission deemed warranted.

All interested parties were given an opportunity to be heard fully and publicly. Civil Service Commission certifications and determinations as originally submitted and as revised, have been reviewed comprehensively and intensively by the Committee during long hours of careful consideration.

The estimated cost of the salary increases in the proposed ordinance certified by the Civil Service Commission is \$30,500,000. The estimated cost of the working conditions and benefits recommended by that Commission together with those proposed as a result of meet-and-confer sessions with employee organizations

will be an additional \$1,700,000 for an approximate total of \$32,200,000. The portion to be borne by ad valorem taxes is estimated at \$23,100,000. The foregoing estimated costs have been provided by the Controller.

DOCUMENTATION:

Each member of the Board has received a copy of:

(1) The Civil Service Commission's report of the Salary and Wage Survey dated January 8, 1979, and the proposed schedules of compensation as certified by the Commission for classifications subject to the provisions of Charter Section 8.400, 8.401, and 8.407, together with the Commission's letter of transmittal dated January 23, 1979.

(2) The Commission's letter to the Board of Supervisors under date of March 16, 1979, transmitting the Commission's certification of updated salary information for classifications subject to the provisions of Charter Sections 8.400, 8.401 and 8.407, was received by the Committee prior to its last meeting, and was received today by the other members of the Board.

The foregoing constitute the Civil Service Commission certification and recommendations. Also received by each Board member was a copy of the proposed Administrative Provisions, together with proposed amendments to those Provisions.

ADMINISTRATIVE PROVISIONS—WORKING CONDITION BENEFITS:

The Legislative and Personnel Committee and all Board members studied carefully the Civil Service Commission's determinations and certifications as to Administrative Provisions, as well as others which were urged independently by employees. It gave careful attention to both verbal and written representations by interested individuals and organization representatives, and referred those provisions to the Employee Relations Division for the meet-and-confer process.

Pursuant to Charter Section 8.407 and opinions of the City Attorney the Board of Supervisors through its designated representatives is required to meet and confer with employees and employee organizations matters within the Board's jurisdiction. The issues within the Board's jurisdiction have been basically defined as only those administrative provisions of the Salary Standardization Ordinance including hazard pay when certified by the Civil Service Commission as prevailing for the employees in the areas surveyed by the Civil Service Commission.

The full Board, in February 1979 agreed to authorize the Chief Labor Negotiator to meet with recognized employee organizations within the parameters set by this Board. The matters discussed below and presented to the full Board today are the result of utilizing this procedure.

In the past three months the Employee Relations Division met and conferred with twenty-two recognized employee organizations. By the mandated Charter deadline of March 15, agreements had been attained with 17 organizations.

Pursuant to Charter Section 9.108 the last demands of the employee organizations with which the Board did not reach agreement may be placed by the employee organizations on the ballot at the next general election for voter approval or rejection.

The issues agreed to between the Board of Supervisors through the Employee Relations Division and the various employee organizations fall into two categories: (1) those agreed upon issues which should be included in the administrative provisions of the Salary Standardization Ordinance; and (2) those agreed upon items which need only be included in a memorandum of understanding to be effective and enforceable.

Items falling in the former category range from sewage premium for certain employees to an additional floating holiday for miscellaneous employees. These agreed-upon changes were particularized and presented to the Legislative and Personnel Committee on March 19, 1979 and have been distributed to the members of the Board and other interested parties.

Items which fall into the latter category include such matters as the providing of ammunition for Deputy Sheriffs and providing tool insurance premiums for various craft classifications. A complete list of those items agreed to in this category has also been prepared and distributed to members of the Board and other interested parties.

There are obviously some costs involved in these items that will require action on the part of appointing officers, the Mayor and the Board of Supervisors to implement said agreements even though the provisions are not in the Salary Standardization Ordinance. The Employee Relations Division will make all concerned parties aware of said agreements and do all that is possible to insure that the agreed upon issues are implemented.

The total cost of both categories is approximately \$1,700,000, as the cost of items negotiated by the representatives of the Board of Supervisors.

The Committee recommends that the Board approve and adopt the Administrative provisions as submitted today.

SCHEDULE OF COMPENSATIONS:

The schedule of compensation which is now before this Board has been certified by the Civil Service Commission as conforming to the provisions of Charter Section 8.407 relative to prevailing rates, and reflecting the data developed from the Commission's initial salary survey for 1979-80, approved January 8, 1979, and from an updating of that survey approved by the Commission on March 16, 1979.

It is not feasible to set forth herein the details of those schedules. I shall, however, touch upon some significant aspects of the schedules which the Legislative and Personnel Committee believe should be noted by Board members and the public.

Approximately 15,600 permanent employees of the City and County will receive salary increases on July 1, while the salaries for about 900 permanent employees are currently above the level of prevailing rates, as shown in the salary survey. Thus, salaries for those employees now being paid above prevailing rates are not certified for an increase in 1979-80.

Salary increases submitted by the Civil Service Commission are estimated by the Controller to cost approximately \$30,500,000 with the ad valorem cost to the City and County being estimated at \$23,100,000. This figure includes basic salaries, internal adjustments, and costs for the City's contribution to retirement and social security funds. It does not relate to costs for employees of the San Francisco Unified School District or the Community College District. The weighted average increase of those positions receiving an increase is 10.5%.

STATUS OF PRIOR YEAR'S SALARY STANDARDIZATION ORDINANCE:

It should be noted that on February 15, 1979 the California Supreme Court issued its opinion in *Sonoma County Organization of Public Employees vs County of Sonoma*, SF23892 declaring that the State's prohibition against granting employee pay raises as a condition of being eligible to receive "bail out" funds was invalid. As a result of this decision, the Mayor has commenced negotiations with various employee organizations on the issue of amending the Mayor's emergency proclamation and reinstating the 1978-79 Salary Standardization Ordinance for a yet-to-be-determined period of time. The Board of Supervisors is working closely with the Mayor in these negotiations. The additional cost to the

City that will result from these negotiations obviously has not yet been ascertained.

CONCLUSION:

The recommendations submitted today constitute the Civil Service Commission certifications, determinations, and recommendations, take into account the Commission's wage survey data, the data submitted by employee and taxpayer representatives, and reflect a number of lengthy and complex meet-and-confer sessions with many employee organizations. The recommendations of the Legislative and Personnel Committee also take into account the current serious inflation-recession-unemployment problems which continue to confront the City and County.

Approval of these recommendations will provide salary levels which the Civil Service Commission states reflect the prevailing rates being paid for like work in the various jurisdictions outlined in Charter Section 8.407.

It should be noted and stressed that Charter Section 8.407 states that the Civil Service Commission shall determine the generally prevailing rates and the Board of Supervisors shall fix pay rates as close as reasonably possible to prevailing rates determined by the Civil Service Commission.

The counsel of all Board members was freely and fully exchanged in all of the Salary Standardization sessions and related executive sessions with the Chief Negotiator. In light of all the information which could be drawn reasonably from the great volume of data submitted, the Committee members are convinced that the foregoing recommendations are in order.

My committee colleagues, Vice Chairman, Don Horanzy and Lee S. Dolson, join me in officially submitting these recommendations. We wish to acknowledge the many hours of extremely diligent work performed by the Chief Labor Negotiator, Mr. Milton H. Mares, ably assisted by Ms. Jean Pral, Employee Relations Representative, Ms. Judy Teichman, Deputy City Attorney, and Ms. Jan Rogers, assigned from Civil Service staff, as well as the invaluable assistance rendered by Mr. John C. Farrell, Controller; Mr. John J. Walsh, General Manager, Personnel; and Mr. Harvey Rose, Budget Analyst, and their respective staffs.

**GORDON J. LAU, Chairman
Legislative and Personnel Committee**

Appointment of President Pro Tempore

At the request of the President, Supervisor Dolson assumed the Chair.

The President reassumed the Chair.

Mr. John J. Walsh, General Manager of Personnel, responded to questions posed by members of the Board concerning the salary survey conducted by the Civil Service Commission. In response to a question by Supervisor Kopp, Mr. Walsh stated that, pursuant to a City Attorney opinion, thrift or security savings funds distributed and allocated to trusts for employees were considered by the Commission in determining the base pay rate for plumbers.

Mr. Harvey Rose, Budget Analyst for the Board, advised that the 1978-79 salary package would be the equivalent of 57¢ on the tax rate.

Mr. Milton Mares, Chief Labor Negotiator, estimated the costs of working conditions and benefits negotiated by the Board to be \$1.8 million rather than the \$1.7 million estimated earlier in the report of the Committee.

After a period of discussion, the roll was called on the pending proposed ordinance and it was passed for second reading by the following vote:

Announcement

President Molinari announced that Mayor Feinstein was in the Chambers, and wished to address the Board with respect to the budget.

MONDAY, APRIL 2, 1979

Remarks of Mayor Feinstein

Following is the text of the statement which the Mayor delivered to the Board:

April 2, 1979
Honorable Board of Supervisors
City Hall, Room 235
San Francisco, California 94102
Ladies and Gentlemen:

Attached is a summary of the Mayor's budget for 1979-1980, the second fiscal year in which we are living under restrictions imposed by Proposition 13.

This is a frugal budget, for these are frugal times in city and county government. We are, I believe, carrying out the mandate of Proposition 13 in our spending program. We are economizing and, for the second consecutive year are actually reducing the amount of money we are spending in the tax-supported departments of local government. We are trimming fat to the bone, and sometimes to the marrow. We have little choice.

In our second year of Jarvis-Gann, our budget for *tax-supported services* is *down* \$4 million, to \$564,261,000 despite an 8 percent inflation factor. The total budget is up \$30 million, all attributed to non-tax supported departments. Our work force will continue to decline. We estimate a reduction of approximately 700 tax-supported employments by the end of fiscal year 1979-1980—mainly by attrition.

We are well on the road of effecting permanent economies and more efficient operations and have made strides towards markedly increasing our productivity. I pledge to you that the pursuit of economy, efficiency, and productivity shall be constant goals of this administration.

We are committed to deliver full services to our people in the areas of police, fire, health, transportation and recreation. *No libraries will be closed; no firefighters will be laid off; no essential public services will be curtailed.* By the end of this budget year there will be more police on the streets.

Part and parcel of this commitment is the belief that these services should be provided by San Francisco city employees who are productive and well paid. There must be ample opportunity for employees who excel to advance. However, taxpayers should not be asked to support those who do not perform. Therefore, this budget is oriented to encourage managers to manage.

Many department heads who are funded at 95 percent of last

year's spending level are going to say—and with some measure of justification—that this is a "not enough budget". In particular, I am aware that the departments, such as the Sheriff, Assessor, the Tax Collector, and City Planning will say they cannot function without additional funding. I disagree. It is my considered opinion that in each case we can achieve a high level of service with the funding provided. I have asked the Fiscal Advisory task force comprised of business and labor, and community groups to study those particular departments, recommend measures for increasing efficiency and productivity. The review will take place before July 1.

In order to clarify the budget proposal, it is divided this year into two distinct sections. One deals with tax supported programs, and the other with enterprise programs, which are not supported by tax dollars and which, like private businesses, pay their own way.

In the first category (tax-supported departments) we include public protection, human welfare activities, culture and recreation, community health, general administration, transportation and public works.

In the "enterprise" classification are such non-tax supported self-sustaining operations as San Francisco Airport, Hetch Hetchy, Water Department, Parking Authority, Farmers Market, Camp Mather, Candlestick Park and the Yacht Harbor.

For the coming year our *self-sustaining* municipal enterprise budget will be \$307,203,700, an increase of \$34 million over last year. The increase in this area is due primarily to the expansion of the Airport, Hetch Hetchy and Water Department capital outlay and maintenance programs. Our municipal enterprises will continue to expand in the coming year with construction of the George R. Moscone Convention Center, and other major projects now underway.

We believe that growth in this sector materially influences the economic health of our City at little or no cost to the taxpayers.

To conform to generally accepted accounting practices, the Municipal Railway and San Francisco General Hospital are shown as "enterprise funds". But they are not self-sustaining and they do require tax support—\$43.7 million for Municipal Railway (a decrease of \$1.7 million compared to last year), and \$20.4 million for San Francisco General Hospital (a decrease of \$2.1 million compared to last year).

In addition to separating tax-supported and non-tax supported

portions of the budget this year, the budget process itself is substantially changed.

In past years the Mayor received budget requests from department heads, reviewed and reduced them, and submitted the Mayor's budget to the Board of Supervisors, where it was again reviewed and reduced and returned to the Mayor for approval. The tax rate was then established by a mathematical computation designed to raise whatever amount appeared on the bottom line.

Proposition 13 has changed all that. This time we knew in advance what the tax rate would be. It was set at \$4 by Proposition 13. My assignment, then, was simply to cut and trim the budget so that it would fall within that tax rate. I have done so. The budget I submit to you today is balanced.

To accomplish this, we cut \$40 million from departmental budget requests which, incidentally, were \$150 million less this year than last. The actual tax-supported spending for fiscal 1979-1980 will be \$564,261,200, which is \$4,129,600 less than anticipated spending for the present fiscal year—the first year of Proposition 13. Last year the Mayor's budget contained a \$23 million increase for tax-supported departments.

TAX SUPPORTED DEPARTMENTS

In the category of public protection, which includes the Police and Fire Departments, the District Attorney and the Sheriff's Office, the Courts and the Public Defender's Office, among others, total tax support is down by \$1,793,900. This has been accomplished despite an increase of \$2 million in the court budgets—over which I, as Mayor, have no control. I would support and encourage a State buy-out of all local government court costs.

I call your attention particularly to the budgets of the Police and Fire Departments.

We reduced Police Department spending requests by some \$3 million—all of it in tax-supported activities. Our Police budget, however, is only \$1 million less than the amount the department spent this year.

The Police budget provides that the department can and will move ahead with its court-mandated training and recruitment program, designed to fully integrate the uniformed force and to bring the department up to its full strength of 1,971 uniformed personnel for the first time in history.

Our crime rate was up 11.6 percent last month. Robbery was

up 17.7 percent, and aggravated assault, 18.5 percent. Larceny increased by 27.6 percent.

Chief Gain and I are convinced there is a direct cause and effect relationship between the increase in crime and the decrease in police manpower. We are currently more than 300 below our authorized strength.

The promise of a safe City, where San Franciscans can walk the streets unafraid and unmolested, cannot be realized without a substantially increased police presence, including police walking beats in our neighborhoods.

I shall review with the Chief recommendations presented in your Budget Analyst's report on the Police Department. The Chief has indicated his agreement in several areas and we will consider implementation where appropriate. But neither he nor I concur in the recommendation that the uniformed force be reduced, and it will not be. I ask your support.

The Fire Department is also receiving about \$3 million less than it requested, but only about \$1 million less than it actually spent during the current fiscal year.

I am determined that no fireman be laid off, and that our real firefighting capabilities not be reduced. I have been assured by Chief Casper that this can and will be accomplished within the parameters of this budget.

In the second major category of tax-supported programs—Human Welfare—tax supported spending is up by \$4 million. Almost all of this—\$3,998,000—is attributable to mandated programs in the Social Services Department. However, none of the additional tax support comes from local property taxes. All of it is in State and Federal subventions.

Under the heading of culture and recreation, our tax-supported spending is down by \$733,400, and our total spending is reduced by \$1.4 million. The only major increase in this category is for the Publicity and Advertising Fund—\$1.2 million. This fund is entirely supported by the Hotel Tax, and it nurtures a variety of cultural programs that would starve without it. The Library budget is cut slightly, but no libraries and no parks will be closed or neglected.

Community Health funding is being cut by \$5 million. A major portion of this amount is \$3.4 million in community mental health services, and reflects a substantial reduction in State aid. However, it must be pointed out that ad-valorem tax support is maintained at the same \$2.2 million level as last year. We strongly

support additional State funding for mental health program needs. Tax support for the General Hospital is down by \$2.1 million, and is up by \$1.3 million for Laguna Honda Hospital, primarily because we will be opening the new 175-bed Clarendon Hall, with semi-private rooms instead of open wards and an increased staffing component to comply with accreditation requirements. We will, during the course of the year, be closing a commensurate number of beds at the old facility.

In the area of General Administration of City government, tax supported spending is up by \$2.6 million. Most of this—\$2 million—is accounted for by increases to the Bond Interest Redemption Fund. The Registrar of Voters requires an additional \$867,900 because he will oversee three elections instead of one.

The Board of Supervisors budget is up, even after excluding the expense of the Budget Analyst's Office. In keeping with past tradition, I am certain the Board would like to make its own cuts. The Mayor's budget has been cut by \$1 million in tax support.

One exception to the general reduction in expenditures is the Controller's Office. At the request of the Controller, with the concurrence of the private industry task force, we are requesting that substantial additional assistance be granted to the Controller's operation to aid and improve his financial reporting capability. His budget is being increased by \$953,000 this year to accomplish these goals. This is a prudent expenditure necessary to preserve our excellent financial rating and to improve our financial reporting capability, which we are advised is deficient. These improvements are vital to our credit rating, our ability to market bonds at low interest rates, and our rendering of adequate and complete financial statements.

JOB REDUCTION

We are continuing the policy of giving our managers flexibility in how they handle their manpower requirements as they reduce their operations to fit within diminished spending levels. Thus, while we allow for the creation of new classifications where necessary to meet new operating conditions, the amount of salary *money* provided to managers of our non-business departments is greatly reduced. With the exception of the Municipal Railway, where we are providing substantial new maintenance personnel, and of the largely State/Federal financed Department of Social Services, our salary and wage appropriations are *down* by some \$6.9 million. This means that an additional 600-700 jobs will have to be vacated during the coming year. The method selected to effect this reduction is a mandatory salary saving which the manager must

produce during the year. This will allow the reduction in force to take place by attrition rather than by massive lay offs, which avoids the certain loss of many hundreds of CETA jobs and of the massive dislocations which city-side bumping caused by lay-offs would bring. In addition, I am inserting language into the budget which will eliminate any job which has remained vacant for a continuous twelve month period, thus clearing the books of those job titles departmental managers have found unnecessary as they learn to live with Proposition 13.

With few exceptions, spending programs for tax supported activities average at 95 percent, or less, of last year's spending levels.

NON-TAX SUPPORTED DEPARTMENTS

In the non-tax supported departments, spending is increased by \$34 million. However, our subsidy for the only two of these departments which are not self-sustaining, the General Hospital and the Municipal Railway, is down \$3 million compared to last year.

The Airport has increased its budget by \$6.2 million in non-tax supported spending due to new runway construction and other capital improvements. Although its budget is up, San Francisco International, as one of the world's leading airports, has never been a burden on the taxpayers. It pays its own way, and we intend to continue to seek ways for this Airport to generate funds for support of vital City departments such as Police, Fire, and the Municipal Railway.

Hetch Hetchy's budget is up by nearly \$10 million, much of which is required to reline the water pipes from the Sierras. No funding is tax supported and Hetch Hetchy will have a surplus this year of some \$6 million which will be used to help subsidize other City operations. We believe it is not prudent to allow this vital system to deteriorate.

I have already mentioned the decrease in tax support for Muni. We fully funded the Municipal Railway's preventive maintenance program and I urge the Board's support. We cannot tolerate the present situation where up to 35 or 40 percent of the vehicles are inoperative due to faulty maintenance. San Franciscans want and need a full-service Municipal Railway.

The Port's budget is up slightly—by about \$882,000 in non-property tax funds. We believe that the Port has turned the "fiscal" corner and will become even more productive in the future as shipping and development continue to increase.

Another major increase in our enterprise accounts is for the

Water Department—\$15.9 million. This is essential for long-delayed repairs and preventive maintenance. To postpone these repairs threatens the viability of the system. By failing to approve some of these repairs in fiscal year 1978-1979, the construction costs have increased 18 percent. We urge that this expenditure be approved this year.

FISCAL ASSUMPTION

In addition to this detailed review of the departmental expenditures, it is important for you to be aware that our revenue figures include all available surplus from the current fiscal year, and assumes a State bail-out equal to what we received last year—some \$116 million. The legislative leadership has advised that it may be mid-June before we know the exact amount of the bail-out, but that would still permit me to make whatever changes might be necessary should the State contribution be decreased.

I will be requesting that you approve an Emergency Declaration so that \$11.9 million in Utility Bond payoffs can be included in the tax rate, above the \$4 limit, as provided by Proposition 13 but prevented by our City Charter. The budget document reflects my intent to suspend the Charter provision for open space purchases so that only one-half of the \$4 million be spent for such purposes during the current fiscal year. If this proves unnecessary, these funds will be restored.

We are anticipating expenditures of \$41 million for the salary standardization package and \$24 million mandated for the City's share of increased retirement rates for tax-supported departments.

This budget document proves that we can live within the mandate of Proposition 13, with proper management, constant vigilance, and the cooperation of a loyal and dedicated City work force.

Sincerely,
Dianne Feinstein
Mayor

"April 6, 1979
Supervisor Robert Gonzales
235 City Hall
San Francisco, California 94102

Dear Supervisor Gonzales:

I am writing in support of your rent roll back proposal. It is

unfortunate that in the aftermath of Proposition 13, we have seen little indication of relief in skyrocketing costs of rental units in San Francisco. It appears that the government must step in and take a role in controlling excessive rent increases.

I am certain that your office has received, as has mine, many letters and phone calls from throughout the City from people of all income levels who have been given unjustifiable increases. I hope that the Board of Supervisors sees fit to pass your legislation.

Sincerely,

/s/ WILLIE L. BROWN, JR."

ADD

"Sec. 5. Emergency Provision. This ordinance is hereby enacted as an emergency ordinance pursuant to Charter Sections 2.300 and 2.301. The basis for said emergency is as follows:

An increase in condominium conversions coupled with a low vacancy factor and increasing rents has precipitated a rental housing crisis in San Francisco. The number of condominium conversion applications has greatly increased during the last twelve months, straining the ability of the Department of Public Works, City Planning Department and the Board of Supervisors to process applications within the time limitations established by the State Subdivision Map Act. In anticipation of the enactment of this ordinance, applications continue to be filed at an increasing rate. Because of the large number of pending applications, the City and County may be prevented from properly reviewing those applications within the required time limitations, resulting in the automatic approval of such applications, thus creating an actual emergency."

Motion to amend adopted by the following vote:

Ayes: Supervisors Dolson, Horanzy, Hutch, Kopp, Lau, Molinari, Pelosi, Renne, Silver—9.

Noes: Supervisors Britt, Gonzales—2.

Finally passed as amended by the following vote:

Ayes: Supervisors Britt, Dolson, Gonzales, Horanzy, Hutch, Lau, Molinari, Renne, Silver—9.

Noes: Supervisors Kopp, Pelosi—2.

- D. If a tenant-purchaser offers the purchased unit for sale within two years from date of purchase, the developer shall be entitled to buy back the unit at the original sale price, plus the percentage increase shown in the Housing Component of the U.S. Consumer Price Index, if any.

Consideration Continued

Annual Budget of the City and County of San Francisco for the fiscal year 1979-80.

File 100-79

Supervisor Silver, Chairman of the Finance Committee, read the budget message, text of which follows:

"This year we present the first post-Proposition 13 budget. Both the taxing and the spending sides of the budget process have radically changed.

The taxing or revenue side has changed because the property tax, long the mainstay of all local governments including the City and County of San Francisco, has been sharply reduced to a maximum rate of approximately \$5.06 per \$100 of assessed valuation as compared with approximately \$11.70 per \$100 of assessed valuation in 1977-78.

On the spending side, this has of course simply reduced available funds and therefore reduced net expenditures.

But it has also produced substantial changes in the manner in which the budget is formulated in the Mayor's office, and the responsibilities of this Board and its Finance Committee for budget reductions.

The Mayor's budget when it was submitted to the Board was a balanced budget based on the \$5.06 tax rate specified in Proposition 13 and based on the revenue projections certified by the Controller. Any cuts made by this Board in the expenditures proposed by the Mayor will go into unappropriated reserves, and will be subsequently re-appropriated by the Mayor (with the con-

currence of the Board) based on supplemental appropriation requests.

In years past, cuts in the Budget made by this Board did in fact reduce the level and cost of government because the tax rate, set after the budget was approved, was raised or lowered to meet the level of expenditures of the budget approved by this Board. This year, however, all budget cuts made by the Board must be recognized as *reallocations* rather than reductions.

The real cut, far exceeding any ever proposed in years past by this Board in the budgets of former Mayors, was that adopted by the voters of California—although rejected in San Francisco.

The task of the Mayor and of this Board, therefore, has been to allocate and to reallocate greatly reduced resources to try to meet the continuing and reasonable needs and expectations of our people.

This budget certainly achieves the goal of allocating less money than ever before, because it must.

We believe that it also achieves the goal of allocating these reduced funds so as to continue all of the vital services necessary to the quality of life in San Francisco. We believe that no new service reduction will be necessary in any major city service—no branch library closed, no audit skipped, no MUNI line abandoned, because of the budget which we present to you today. Yet most city departments have been funded at less than their last year's budget, and that last year's budget was the same as or less than the prior year's budget (this excludes salary standardization increases).

COMPARATIVE BUDGET DATA

1979-80	Mayor's Recommended Budget	...\$924.4 million*
1979-80	Finance Committee's Recommended Reduction of Mayor's Budget\$ 10.9 million
1979-80	Finance Committee's Recommended Budget\$913.5 million

*Includes estimated increased costs for 1979-80 salary standardization and meet and confer costs, retirement, health benefits, the supplemental budgets of the Municipal Court and Superior Court, and the Emergency Reserve Fund. Excludes additional requirements for Open Space since the Mayor's Office has indicated that an emergency will be declared in order that additional Open Space funds need not be appropriated. Also excludes Mayor's clerical errors.

SUMMARY OF FINANCE COMMITTEE'S RECOMMENDED REDUCTIONS

The reductions recommended by the Finance Committee in the Mayor's proposed budget approximately \$10.9 million, including \$4.5 million in cuts in expenditures from the General Fund (property tax).

Hard work and hard decisions have been necessary to achieve these recommended savings.

They were not achieved by randomly deleting every new initiative offered to address continuing problems. Nor were they achieved through the penny-wise-pound-foolish policy of many years past, to hack away at preventive maintenance of the City's vehicles, the MUNI, and any other budget just because it seemed politically necessary to make cuts, whether or not viable. Similarly, public health, which is preventive maintenance for the health of our people, has been treated with the importance it deserves. And the Controller's vital control over the City's computerized accounting system has been preserved.

On the other hand, no budget item has been so much a sacred cow as to have escaped scrutiny by the Committee and, where appropriate, cuts by the Committee. The Sergeant-at-Arms of our own Board of Supervisors, auto insurance that had never paid a claim, underutilized and unnecessary police cars, have all been recommended by the Finance Committee for elimination from this budget.

I am proud, therefore, to submit this budget to the Board of Supervisors with the recommendations of the Finance Committee and to urge that these recommendations be accepted and the budget approved as amended.

Highlights of the recommended reductions follow.

AUTOMOBILE SELF INSURANCE

Our existing auto insurance policies have a deductible of \$500,000. The Committee determined that the City has never had an accident claim in excess of \$100,000 for a single accident involving a vehicle in its general fleet, and that therefore no claims have been paid under this insurance policy. Based on that fact, and based on the emergency reserve funds and other reserve funds included in the City's budget, the Committee has recommended that the City's general automobile fleet be self-insured as is now the case with the City's Municipal Railway transit vehicles and ambulances. The Committee's recommendation will save \$340,758 this year and more each year that this new policy continues.

VEHICLES

The Committee has recommended that 19 automobiles of the Mayor's recommended 59 new vehicles in various departments be deleted and that funds for the remaining 40 vehicles be reserved pending the forthcoming management audit report of the Board of Supervisors' Budget Analyst.

POLICE DEPARTMENT

The Mayor's recommended 1979-80 Police Department budget was \$81,553,288, which is 98% of the approved 1978-79 Police budget, and would be 10.1% of the total City budget.* The Committee has recommended reductions which, without reducing the size or effectiveness of the police department, can be made in this budget, totaling \$1,703,010:

- Funding of \$29,700 for the Airport Captain position has been recommended for deletion since this position no longer exists at the Airport;
- Based on anticipated delays in the police recruitment training program, a review of sworn police officer positions which are funded with grant monies, and an adjustment for salary standardization, the Committee has recommended an increase of \$602,176 in the required amount of the uniform force salary savings which will be achieved by the Department;
- The corresponding reduction in the fringe benefit account is \$363,515;
- Among non-sworn positions, the Committee has recommended the deletion of 7 new personnel positions because the Mayor's Office had already removed funding for these new positions through salary savings
- The Committee recommended approval of a requested new position of senior departmental personnel officer, with a corresponding deletion of two vacant positions because the Police Department requested that the funding for these two vacant positions be substituted for the new personnel officer;
- Of 50 requested marked patrol sedans, the Committee has recommended approval of 30 which the Police Department accepts as reasonable based on a review of projected mileage;
- Of the 90 requested unmarked patrol autos, the Committee

*After all other cuts recommended by this Committee and after salary standardization and increased retirement costs have been added.

has recommended approval of 20 based on a review of mileage and utilization an the recommendations of the Budget Analyst's Police Department management audit report, which found an average of 94 out of 204 vehicles in this category parked at the Hall of Justice during both day and night hours; —The recommended reduction of these police replacement vehicles and their special auto equipment totals \$640,240.

FIREBOAT

There has continued to be a departmental dispute as to whether the Port or the Fire Department should pay for the operational costs of the fireboat which operates at the Port. The Finance Committee believes that Port revenues rather than the Fire Department's ad valorem funds should be used to pay for the fireboat costs. Funds were included by the Mayor's Office in the Port's recommended 1979-80 budget to pay for the Fire Department's entire costs of the fireboat. However, the Port believes that, based on prior studies and based on the fact that some of its piers have been equipped with sprinklers and that some of its sheds have been removed, it should only pay for the standby costs estimated at \$541,500, excluding salary standardization. In the opinion of the City Attorney, the Port has some discretion as to how many firefighters are presently needed to maintain the fireboat.

At the urging of the Finance Committee, the Commissioners of the Fire Department and the Port have met and discussed the matter further. It is the Committee's understanding that an agreement will ultimately be reached to reduce the staffing costs of the fireboat.

MUNICIPAL RAILWAY

The Municipal Railway budget, as presented by the Mayor, included large increases for (1) full implementation of the recommendations of Urban Transportation Development Corporation (UTDC) for increased preventative maintenance, (2) increased operating costs of new schedules which increase total transit mileage without increased platform operator (driver) hours required, (3) increased service schedules for the elderly and handicapped, and (4) increased net service schedules for the implementation of the first phase of the Planning, Operations, and Maintenance (POM) study, rerouting various diesel coach lines. Total reductions of \$452,516 have been recommended by the Committee including 29.6 position reductions and a possible reduction of an additional 11 positions pending review of the UTDC recommendations. None of the recommended reduction would reduce the total

of 28.1 million scheduled miles of service which was proposed by the Municipal Railway for fiscal year 1979-80.

DEPARTMENT OF PUBLIC WORKS (DPW) AND THE WASTEWATER PROGRAM

In the Department of Public Works, which this year includes the Wastewater Program, the Committee has recommended reductions totaling approximately \$1 million and the deletion of two new positions proposed by the Mayor.

The Bureau of Sanitary Engineering, which in previous budgets had been a part of DPW, has become a separate department, titled the Wastewater Program. This program includes the debt service, the engineering and the facilities maintenance costs associated with the construction, replacement and renewal of San Francisco's sewer collector system. As presented in the 1979-80 budget, the Wastewater Program does not include capital expenditures, estimated to total \$1.5 billion in expenditures over several years, funded with bond or grant funds. The Finance Committee has requested that the management of the Wastewater Program provide additional financial and budget data on those portions of the Wastewater Program that do not appear in the proposed 1979-80 budget. Also, the Committee has recommended the reduction of \$500,000 overbudgeted in the sewer facilities maintenance program account.

In the remaining DPW budget, the Committee has recommended reductions, which will not affect service to our citizens, totaling approximately \$525,000. These include:

- Reduction of \$263,059 in personnel costs, principally due to improved workcrew scheduling and procedures;
- Deletion of \$62,000 to replace outdated police and fire alarm systems in districts where all electrical and overhead lines are undergrounded;
- Reduction of \$47,050 overbudgeted for overhead by the Industrial Waste Program; and
- Deletion of \$80,390, so as to provide only six months funding for the Water Reclamation sewage treatment plant in Golden Gate Park, during which time a conversion will be made to use regular City water, but leaving the plant operational in case of another drought.

LAGUNA HONDA HOSPITAL

The Finance Committee has recommended approval of 200 new employees. Of these, 28 are needed to comply with medical records and activities program standards to preserve the ability to

continue to receive Medicare and Medi-Cal revenues. The remaining 172 additional employees will permit Laguna Honda Hospital to operate Clarendon Hall for a net of 170 *additional* patients, with a net *reduction* in ad valorem support for Laguna Honda Hospital because of the additional federal and state subsidies.

As background to the above, approximately \$3 million in Federal Public Works Act funds have been used to remodel Clarendon Hall to meet State skilled nursing facility requirements and fire and safety standards. The City Architect has reported that the building, closed since 1976, is scheduled to re-open on October 1, 1979. However, while approving the 200 new positions, the CAO and the Mayor's Office had increased the salary savings amount so as effectively to allow for only the 60 additional employees required for the re-opening of the Clarendon Hall facility. The funding provided by the CAO and the Mayor's Office was inadequate to provide staff to care for the 170 additional patients to be located at Clarendon Hall and also existing wards. Therefore, the Department of Public Health planned to close five wards in the main hospital building and transfer the staff and the 150 patients from these wards to Clarendon Hall. Therefore, as proposed, the Laguna Honda Hospital patient census would rise by only 20 patients, from approximately 900 to 920 patients.

Careful review of this matter by the Finance Committee disclosed that it would require less ad valorem tax support to operate Clarendon Hall for 170 new light and moderate care patients than to transfer 150 existing Laguna Honda patients, close 5 wards, and reduce the number of hospital beds in the main hospital by 150. At the request of the Finance Committee, the CAO's staff and the Mayor's staff have agreed to request the additional funding to care for the 170 additional light and medium care patients, if the Controller, after his review, certifies that additional ad valorem funds will not be needed. This plan to care for 170 *new* patients at Clarendon Hall will require a supplemental appropriation of approximately \$700,000, which should be more than offset by increased revenue. With the full utilization of the 170 bed Clarendon Hall facility and no reduction in the present number of approximately 900 hospital beds in the main hospital, Laguna Honda Hospital can provide nursing care for 1,070 patients.

MUNICIPAL COURT

The Finance Committee has recommended that the budget submitted by the Municipal Court be reduced by approximately \$900,000. These reductions include, primarily, reductions in equipment and capital projects totaling \$458,097 and increases in salary savings and fringe benefit savings totaling \$233,341. Other major

reductions are generated by the delay of a new automated jury system (\$62,000) and a revised estimate of the cost of a new system for processing traffic fines (\$130,950). Even with these reductions, the recommended budget for the Municipal Court would exceed the current budget by approximately 10.8%. These increases are almost entirely explained by mandatory items and revenue-producing items. For example, the data processing costs allocated to the Municipal Court are projected to increase by \$226,035 in order to pay for the processing of an increased number of traffic citations based on current and projected workload. As another example, the implementation of a new automated traffic citation system is recommended to receive a one-time budget allocation of \$390,000 which will enable the Municipal Court substantially to increase the number of citations processed and the speed with which they are processed. It is estimated that this increased capability will enable the City and County to receive additional revenues of at least \$2 million annually.

PUBLIC LIBRARY

While the Committee has recommended the reduction of \$271,022 in permanent salaries and related mandatory fringe benefits, it believes that these reductions should not result in any reduction in service or in any closure of branch libraries. In particular, some of the recommendations of the Budget Analyst, made six years ago, have not been implemented. These recommendations demonstrated that librarians should reschedule their working hours in accordance with the workload of the library, in order to provide adequate services. Further, it is the Committee's strong belief that an adequate book budget is vital for San Francisco taxpayers and has therefore recommended that the Library's book budget be increased by \$100,000 from the \$697,000 level recommended by the Mayor to \$797,000.

CITY ATTORNEY

The Committee has recommended approval of six new positions in the City Attorney's Office, including 1 Head Attorney Civil and Criminal for the Port, 4 Paralegal positions, and 1 Legal Stenographer. Further, the Committee has recommended approval of additional word processing equipment for this office. The Committee is convinced that increased levels of funding for this office will result in savings to taxpayers through reductions in the amounts paid by the City and County for settlements and judgments.

DEPARTMENT OF SOCIAL SERVICES

The Committee has recommended reductions totaling \$1.2 mil-

lion including \$672,955 in temporary salaries and the deletion of 11 new positions.

FINANCIAL INFORMATION AND PROGRAM BUDGETING SYSTEM

I would like to note that the 1979-80 budget was partially presented in a new manner, using the concepts and procedures developed by the Mayor's Financial Information and Resources Management (FIRM) project. A computerized financial accounting system has been installed in the Controller's Office and employed in generating the proposed budget. Although there are, of course, errors resulting from the newness of the computerized system, as is often the case in such an effort, we are confident that these errors will be corrected to produce a valuable fiscal management tool. A second feature of the FIRM project is the development of program-performance budgeting methods throughout all City departments. The Recreation and Park Department served as the pilot department in presenting a program-performance budget this year. Program-performance budgeting is intended to provide a way of matching planned expenditures against services to be delivered and results expected to be achieved. As with the new financial system, further refinement of this method of budgeting is needed. However, the Recreation and Park Department should be commended for its initial efforts and commitment to improvement.

ACKNOWLEDGEMENTS

The Committee commends and thanks all of the following for their valued assistance and cooperation:

- Controller John Farrell and his budget assistants, Bill O'Sullivan, Ralph Chin, Bob Mast, and Mike Lichtenstein;
- The Mayor's Executive Deputy for Program and Fiscal Administration, Rudolf Nothenberg, his Budget Assistant Ray Sullivan, and their staffs;
- Harvey Rose, the Board of Supervisors' Budget Analyst, and his staff, especially Phil Arnold, Ken Bruce, Bill Courtright, Tom Dorn, Bob Gamble, Roger Mialocq, Chris Papesh, Dewey Yee, Ann McCrystle, and Helen Daniels; and
- The Financial Information and Resources Management (Program Budgeting) staff, particularly Peter Henschel.

All of these persons worked very long hours over many weeks both at the Committee's meetings and in analysis, study, and exposition to guide the Committee in its recommendations.

The budget data of the School District and the Community College District are not included because these budgets, by law, are not subject to either review or action by the Board. Also excluded are the federal Community Development Block Grants, which will be presented later in the year.

At the regular Board meeting of May 21, 1979, I will move that the budget, as amended by the Board in accordance with the Committee's recommendations, be adopted."

cating that she had accepted the resignation of Richard N. Goldman from the Port Commission, after being advised by the City Attorney that the Charter affirmed existence of a conflict of interest in this instance.

Communication noted and ordered filed.

Request Granted

Supervisor Molinari requested that letter be directed to City Attorney, inquiring whether a resignation is effective upon submission to the Mayor, or whether it is not effective until the Mayor accepts it.

No objection and Clerk directed to comply.

The Clerk presented a communication from her Honor, the Mayor, advising that she was returning File 224-79-1 and allowing it to go into effect without her signature. The Mayor stated in her letter that she, too, was concerned about the Goodman Building, and that it is her intention to call a meeting with members of the Board, the Goodman group, the Redevelopment Agency and her staff to secure agreements which will allow the developer to proceed with completion of his proposal for redevelopment.

Communication noted and ordered filed.

The Clerk presented a letter from her Honor, the Mayor, transmitting an emergency proclamation to provide for transfer of certain funds to the General Fund in order to implement salary increments for City employees for a seven-month period, 1978-79.

The Mayor appeared before the Board to personally explain her emergency proclamation, and to request the Board's concurrence therein.

(Text of the emergency proclamation follows.)

PROCLAMATION OF EMERGENCY

WHEREAS, on June 12, 1978, a proclamation of emergency was declared by the Mayor and concurred in by the Board of Supervisors in accordance with the Charter of the City and County of San Francisco; and

WHEREAS, on June 19, 1978, and June 26, 1978, proclamations of emergency were declared by the Mayor and concurred in by the Board of Supervisors in accordance with the Charter of the City and County of San Francisco both of which amended the June 12, 1978, proclamation of emergency; and

WHEREAS, said proclamations of emergency and the amendments thereto expire on June 30, 1979, unless sooner recalled by the Mayor; and

WHEREAS, the need for said proclamations arose out of an Amendment to the California Constitution adding Article XIII A thereto passed by the voters of the State of California on June 6, 1978, which severely reduced the ad valorem tax revenue available to the City and County of San Francisco; and

WHEREAS, said reductions in ad valorem tax revenues would have necessitated the elimination or drastic curtailment of those city services vitally necessary for the protection of the lives, property and welfare of the citizens as well as the property of the City and County of San Francisco; and

WHEREAS, there was and still is a compelling necessity for keeping those city departments charged with responsibility for protecting the lives, property and welfare of the citizens and the property of the City and County of San Francisco at that operational level necessary for the discharge of their duties; and

WHEREAS, certain of the city departments (such as police, fire and public health) rely exclusively or heavily on ad valorem revenues to provide services which are vital to the lives, property and welfare of the citizens and the property of the City and County of San Francisco; and

WHEREAS, said emergency proclamation of June 12, 1978, as amended June 19, and June 26, 1978, suspended, inter alia, those provisions of the Charter pursuant to which wages of employees are to be established and froze those wages at the 1977-1978 level; and

WHEREAS, said emergency proclamation was designed to enable city officials to allocate funds in a fashion most likely to minimize the severe disruption, unemployment, and confusion necessarily to flow from the severe reduction in ad valorem tax revenues brought about by the adoption of Article XIII A to the California Constitution; and

WHEREAS, after the effective date of the proclamation of emergency and amendments thereto the California State Legislature enacted Senate Bills 154 and 2212, providing for the distribution of State surplus funds to local government agencies with the provision that those local agencies, including San Francisco, may not pay a salary or wage increase to their employees; and

WHEREAS, on February 15, 1979, the Supreme Court of the State of California held invalid those portions of Senate Bills 154

MONDAY, MAY 21, 1979

and 2212 which prohibited salary or wage increases for the fiscal year 1978-1979 (and commonly called the "wage freeze"); and

WHEREAS, the distribution of State surplus funds and the Supreme Court decision invalidating the "wage freeze" require the city to reconsider the scope and extent of the emergency with the purpose of determining whether and to what extent the city may consistent with its duty to provide minimum basic services to the public make pay raises to employees; and

WHEREAS, the City and County of San Francisco must now adopt a budget for the fiscal year 1979-1980 which budget relies in substantial part on ad valorem tax revenues available to the City and which sums are vital to the continued operation of those City departments which provide services promoting, protecting and preserving the lives, property and welfare of the citizens and the property of the City and County such as police services, fire services and health services; and

WHEREAS, the Charter of San Francisco, written on the premises of an open ended ad valorem tax base, establishes certain ad valorem tax funds for specific uses, requires the City to follow certain procedures which result in annual increasing costs to be incurred by the City (for example wages, including annual raises for some municipal employees and pension costs) and leaves the remainder of the City departments and services to draw as needed on the ad valorem tax base, the Board of Supervisors setting the necessary tax rate to pay all municipal expenses; and

WHEREAS, those special funds and mandatory expenditures are given by the Charter an effective priority over General departments in terms of access to the pool of ad valorem tax revenues; and

WHEREAS, the City departments directly responsible for the preservation of the health, welfare and safety of the citizens are not accorded any priority in the Charter on access to ad valorem tax revenues; and

WHEREAS, the Charter mandated priorities place pay raises, open space acquisition, and other non-essential undertakings ahead of the police department, fire department, public health department, and other departments responsible for the preservation of essential protection services necessary to the continued existence of an effective social order; and

WHEREAS, unless the Mayor and the Board of Supervisors adopt a reasonable plan to meet the severe reductions in ad valorem revenues available for the city budget for fiscal year

1979-1980, vital city services will be eliminated or severely curtailed because of the lack of funds; and

WHEREAS, said curtailment or elimination threatens the public health, welfare and safety; and

WHEREAS, the City and County of San Francisco has operated within the fiscal constraints imposed by the adoption of Article XIII A of the California Constitution for a period of ten (10) months and is still in the process of making adjustments and reductions in those city services funded from ad valorem tax revenues; and

WHEREAS, the surplus funds distributed by the State were used to insure the continued provision of vital city services and to comply with City Charter requirement for expenditures of monies which vital city services were and continue to be essential to the lives, property and welfare of the citizens and the property of the City and County of San Francisco; and

WHEREAS, the emergency measures adopted by the proclamation of emergency on June 12, 1978, and as amended, allowed the city to continue, for the fiscal year 1978-1979, providing the vital services enumerated above; and

WHEREAS, the City and County encumbered substantially all of those funds made available by the proclamation of emergency for the provision of vital services and the avoidance of massive lay-offs; and

WHEREAS, those funds included funds which but for the aforementioned wage freeze otherwise would have been expended for wage increases due city employees for the fiscal year 1978-1979; and

WHEREAS, the Supreme Court decision mentioned above held invalid the Statute precluding the City from pay increases to its employees; and

WHEREAS, within the constraints imposed by Article XIII A of the California Constitution and the limitation imposed by prudent fiscal management, the City may now make a partial payment of the wage increase to which employees were entitled to for the fiscal year 1978-1979 which but for the adoption of Article XIII A of the California Constitution and the promulgated emergency proclamation they would have received; and

WHEREAS, the City and County of San Francisco has adopted a budget within the constraints of the aforesaid Constitutional Amendment and by virtue of those constraints there still exists a

serious shortfall in the revenue necessary to continue said vital services; and

WHEREAS, certain sections of the Charter of the City and County of San Francisco impose limitations which effectively restrict funds available to maintain necessary police, fire, and public health services as well as other vital services at the level necessary to protect the lives, property and welfare of the citizens and the property of the City and County of San Francisco; and

WHEREAS, the proposed budget for the fiscal year 1979-1980 cannot be reduced further while still providing sufficient ad valorem funds to continue the vital operations of city government; and

WHEREAS, the only available method of funding said 1979-1980 budget is to set aside certain provisions of the Charter in order to meet the severe and drastic reductions in revenue occasioned by the limitations set forth in Article XIII A of the California Constitution; and

WHEREAS, the adoption of Article XIII A of the California Constitution has seriously impaired the municipal taxing power and the city's ability to gather and expend municipal tax monies; and

WHEREAS, said adoption of Article XIII A of the California Constitution has placed in significant jeopardy the continued operation of the City under the Charter as it is presently written; and

WHEREAS, any drafting of or changes to the Municipal Charter relating to the physical administration of the City as it has been affected by the adoption of Article XIII A of the California Constitution must be made with deliberate caution and is now the subject of review by an elected Charter Revision Commission; and

WHEREAS, the people of the City and County of San Francisco have not yet had an adequate time fully to assess the impact of the adoption of Article XIII A of the California Constitution on the physical administration of the City so as to intelligently and circumspectly draft appropriate changes in the San Francisco Charter in order to reallocate priorities in light of the fact that there is no longer an open ended tax base; and

WHEREAS, the continued preservation of needed public services at an effective level is dependent upon an immediate reallocation of priorities in the expenditure of public monies through the adoption of this emergency proclamation;

NOW, THEREFORE, by virtue of the powers vested in me by the provisions of Section 3.100 of the Charter, I do hereby declare that an actual public emergency exists, which involves and threatens the lives, property and welfare of the citizens and the property of the City and County. In order to effectively respond to the state of emergency as set forth herein, I hereby direct that the following measures are to be taken and put into effect forthwith:

1. The amount of monies which would have been paid on said bonds by revenues of the Water Department and Hetch Hetchy Department is hereby ordered to be transferred to the General Fund and in order to make this transfer Charter Sections 6.305, 6.407(a) and 6.407(e) are hereby suspended to that extent.

The Board of Supervisors hereby appropriates the monies necessary to implement this provision."

15. Paragraph 2 of the Proclamation of Emergency dated June 12, 1978, is hereby amended to read as follows:

The wages, conditions and benefits of employment of the employees covered by Section 8.404 as existing for the fiscal year 1977-1978 shall remain in full force and effect during the period of July 1, 1978, to June 30, 1979. The Board of Supervisors shall adopt the necessary ordinances to be effective June 30, 1979, to pay the rates of compensation and conditions and benefits other than wages fixed by the Board of Supervisors pursuant to Charter Section 8.404, but without regard to the dates set forth therein, based upon the pertinent data certified to the Board of Supervisors by the Civil Service Commission to have been legally payable for work or services performed on August 1, 1978. Said rates of compensation shall only be paid from December 1, 1978, and until such time as subsequent legislation is adopted, pursuant to Charter Section 8.404, provided however that the payment of any retroactive portion of said salary or wage rate increase shall be made only upon the

It is my intention that if any section, subsection, subdivision, paragraphs, sentences, clause or other phrase of this emergency proclamation or any part thereof, is for any reason held to be unconstitutional or invalid or ineffective or in any other way unlawful by any court of competent jurisdiction, or other competent agency, such decision shall not affect the validity or effectiveness of the remaining portions of this emergency proclamation or any part thereof. Annual budget of the City and County of San Francisco for fiscal year 1979-80.

File 100-79

Supervisor Kopp presented a minority report, outlining the reasons for his dissenting from recommendations of the Finance Committee. (Text of that report appears below.)

MONDAY, MAY 21, 1979

**MINORITY BUDGET STATEMENT BY
SUPERVISOR QUENTIN L. KOPP**

Today, the Board of Supervisors has before it for consideration the largest budget in its history, irrespective of the restraints placed upon it by the passage of Proposition 13. The Finance Committee recommendations represent the smallest reductions made to a budget in the last five years. As a member of that Committee, I found it impossible to endorse the recommendations made by the Committee and present this as the rationale for such dissent.

I. MAYOR'S BUDGET PRESENTED TO THE FINANCE COMMITTEE

The Mayor's budget recommendations totaled \$926.9 million, over \$100,000,000 more than the 1978-79 expenditures (actually, over \$135,000,000 more than the official 1978-79 budget) and is balanced only by *utilizing the entire City surplus*, receiving a state "bailout" comparable to last year, declaring an emergency to freeze part of the open-space fund plus miscellaneous minor Charter mandated programs, and various other assorted sources of funding. This budget left the Finance Committee with little actual work to be done. Due to a continuing lack of management initiative and imagination in the Mayor's program, the Committee could not effectuate large reductions without engaging in the management of City departments.

Further, this budget is tailor-made for mismanagement. No hard look was made at staffing patterns or management controls in departments, as illustrated by testimony received on the library and the zoo, for example. (See attached memo on the library.)

Because no hard decisions were made, no policy decisions, no governmental reforms were contained in the Mayor's budget recommendations, we were either presented with the option of creating massive layoffs, and reconstructing departments, *OR* business as usual in the management of City government. The Committee really had little by way of an option. Even more remarkably mindless was the Mayor's advices to the Committee to compile a "laundry list" of spending items for inclusion in the budget from any of the Mayor's recommended appropriations which the Committee should happen to cut. This was like marching down the hill and then marching back up it. Fortunately, when the Committee Chairwoman found Supervisor Hutch and I unwilling to engage in such charade, the Mayor's requested additional spending program was not acted on in committee. Nevertheless, the Mayor's proposal still appears in the Finance Committee Chairwoman's recommendations to this Board.

Most crucial, due to the structure of the Mayor's budget, we have been informed, both orally and in writing by the Controller, that we face a shortfall of \$114,000,000 next year. This information must have been available to the Mayor when she presented her "frugal" budget to the Board. Having this knowledge, coupled with the large salary standardization package and retroactive raises due city employees this year, and not utilizing it at this time, is in my estimation the height of irresponsibility and a relinquishment of executive power to the legislative branch.

II. FINANCE COMMITTEE DELIBERATIONS

The Finance Committee thus spent three weeks and produced a mouse—the smallest reduction in a budget in at least the last 5 years (see chart attached). The major "management" tool which we had at our disposal was supposed to be "program budgeting". It's a total disaster, a sham and is why I moved unsuccessfully to delete the 1979-80 appropriation for FIRM from the budget. It was impossible to understand clearly what was included in departmental budgets. It was cumbersome and confusing, especially to the public during our hearings. Further, while it was designed to add flexibility to departments—if you cannot identify individual items in the budget—there is no explicit way of providing such flexibility and know whether items you wanted to maintain or items you wanted to eliminate were in fact treated in this manner. Flexibility, to the very limited degree that it is given to departments today, could be maintained without this costly system, which effectively removes Board of Supervisors control over how money will be actually spent.

With all the impediments in the Committee's way, I did move an additional \$4.5 million in cuts from the Mayor's budget which were turned down by my colleagues on the Committee. I identified at least an additional \$113,381 which I suggested to the Committee, but was not voted on. This is a total of \$4,657,647 in cuts which could have been made, following the Mayor's budget guidelines. At a time when we are facing such a large shortfall, it was in my mind, incumbent on the Committee to make all of the possible cuts which it could without reducing service levels. (A list of my suggested cuts is attached.)

The Committee, during its deliberations, became aware of the fact that while it had been represented that this was a "frugal" budget, cutting departments to the bone, several new programs were being initiated. For example, the budget includes \$200,000 for a Work Furlough program, a program which I have supported in the past, but which I believed was and could be funded by state and federal funds. Further, and most amazing, was the fact that

there have been identified by my office approximately 700 new positions within this budget. What possible justification can there be for these new positions when massive layoffs are projected for next year? It seems imprudent to continue to hire new employees who more than likely will face layoff in 1980.

III. MAYOR'S EMERGENCY PROCLAMATION

The Mayor's Declaration of Emergency, which the Board will also have before it today, indicates the problems in funding the 1979-80 budget. It further shows that the Mayor is in fact aware of the budgetary dilemma she has presented to the Board. I agree there is an emergency in San Francisco, one that should be faced today, rather than next year when we know there will be a reduction in state funds and when we will have no surplus to shore up a failing, insolvent governmental structure. I commend the Mayor for recognizing the emergency but she has applied only superficial measures to deal with it. If we are suspending certain provisions of the Charter under this Emergency Proclamation, we should freeze all hiring immediately. Department heads should be given the authority to shift personnel among various departments as needs arise. Give them flexibility; let's utilize personnel for maximum effect. For example, the Mayor's budget personnel who will have a slack period between now and the fall could be transferred to the Controller's office where the peak period has just begun. While this may be unconventional it illustrates just one management technique which could be incorporated in the emergency proclamation where real cost benefits could be effectuated

IV. RECOMMENDATIONS

With careful consideration of department needs, a mind for fiscal responsibility, a knack for constructive new management techniques and a real sense of the enormity of the crisis the Mayor's budget has created on our future, it would be possible to reduce this budget by a much larger degree. However, this takes leadership, initiative and hard stands by the executive branch. For example, there is currently identified by the Controller, approximately \$7 million in the off-street parking fund as surplus. With an amendment of the bond indentures we could transfer this money to the general fund. At the same time, this would put us on record as opposing the new construction of garages such as the Sutter-Stockton extension which has been proposed and which will eliminate approximately 250 housing units in its wake.

Further, if the budget process illustrates nothing else, it does show unequivocally how great the need is for civil service reforms. The need for revision in recruitment techniques, the need for pre-

employment examinations in a systematic fashion, the need for open examinations and the need to extend probation to one year for all employees (not just for police and fire) are glaring. Examinations should be given and graded the day that individuals apply to the City. Making City employment a more attractive option will not only attract a more diverse group of individuals, but will also provide us with the technical skills and potential not presently available. Coupling this approach with flexibility in job classifications, elimination of excessive stratification of duties, institution of real incentives called for above are examples of reforms which would be cost effective and management effective.

V. SUMMATION

As I stated in the Finance Committee, I cannot in good conscience support or put my imprimatur on this budget, either as recommended by the Mayor or by the Finance Committee. It does not represent creative management of our City and it will lead to a devastating financial situation next year.
